- 12:15** Roundtable

Guest Presenter:

Sandra Whitehead, PhD
Director of Healthy Community Design
National Association of County & City
Health Officials, Washington, DC

* Health Impact Assessments (HIAs) ensure that health and health inequities are considered in decision-making using an objective and scientific approach, and at the same time engage stakeholders in the process. This training will be specific to the mini-grant opportunity. If you're not planning to apply your participation would still be helpful.

The Florida Department of Health in Hillsborough County is excited to announce a mini-grant available to POP members, community organizations and groups that are located in and serve Hillsborough County. Groups that are currently unaffiliated with POP will be required to participate in the partnership if awarded funding.

Attendance at this meeting is required to be eligible for the grant. Further information on deliverables and timelines for the grant will be discussed during the January meeting.

RSVP to Cindy Hardy at Cindy.Hardy@FLHealth.gov or 813.307.8071 ext. 7102 by January 2, 2015

Light refreshments will be provided to celebrate another year of partnership successes!
